GIAN TR retarder paper

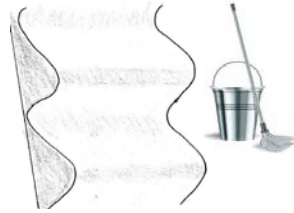

GIAN TR concrete result

GIAN TR Expo-gravel

GIAN Tape 50 mm

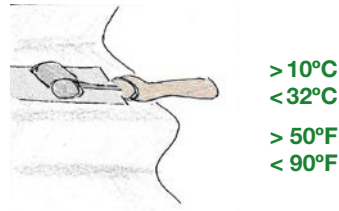

non-slip stair nosing manual
note: back- and frontlayer!

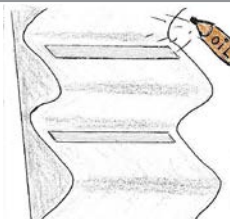

clean mould

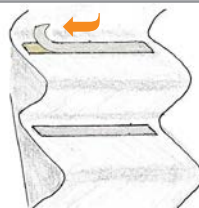

customise,
remove shiny backlayer

apply firmly

spray release agent

Extra step!
remove protective frontlayer

pour concrete

Note:
GIAN TR is a retarder.
To reveal the exposed gravel effect,
wash out the unhardened cement
nosing using a high-pressure cleaner.

When applying the tape, ambient temperature must be between 10-32° Celsius (50-90° Fahrenheit).
